<u>Port of Loading</u>	General average shall be adjusted according to the York-Antwerp Rules 1994 or any subsequent modification thereof, but where the adjustment is made in accordance with the law and practice of the United States of America, the following Clause shall apply:		
a) In the event of the loading port being inaccessible by reason of ice when Vessel is ready to proceed from her last port or at any time during the voyage or on Vessel's arrival or in case frost sets in after Vessel's arrival, the Master for fear of being frozen in is at liberty to leave without cargo, and this Charter Party shall be null and void.	"In the event of accident, danger, damage or disaster before or after the commencement of the voyage, resulting from any cause whatsoever, whether due to negligence or not, for which, or for the consequence of which, the carrier is not responsible, by statute, contract or otherwise, the goods, shippers, consignees, or owners of the goods shall contribute with the carrier in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred and shall pay salvage and special charges incurred in respect of the goods.		
b) If during the loading the Master, for fear of Vessel being frozen in, deems it advisable to leave, he has liberty to do so with what cargo he has on board and to proceed to any other port or ports with option of completing cargo for Owner's benefit to any port or ports including port of discharge. Any part cargo thus loaded under this Charter Party to be forwarded to destination at Vessel's expense but against payment of freight, provided that no extra expenses be thereby caused to the Receivers, freight being paid on quantity delivered (in proportion if lumpsum), all other conditions as per Charter Party.	If a salving ship is owned or operated by the carrier, salvage shall be paid for as fully as if the said salving ship or ships belonged to strangers. Such deposit as the carrier or his Agents may deem sufficient to cover the estimated contribution of the goods and any salvage and special charges thereon shall, if required, be made by the goods, shippers, consignees or owners of the goods to the carrier before delivery"		
c) In case of more than one loading port, and if one or more of the ports are closed by ice, the Master or Owners to be at liberty either to load the part cargo at the open port and fill up elsewhere for their own account as under section b) or to declare this Charter Party null and void unless Charterers agree to load full cargo at the open port.	and the Charterers shall procure that all Bills of Lading issued under this Charter Party shall contain the same Clause.

If the liability for any collision in which the Vessel is involved while performing this Charter Party falls to be determined in accordance with the laws of the United States of America, the following Clause shall apply:		
b) If during discharging the Master for fear of Vessel being frozen in deems it advisable to leave, he has liberty to do so with what cargo he has on board and to proceed to the nearest accessible port where she can safely discharge.	"If the ship comes into collision with another ship as a result of the negligence of the other ship and any act, neglect or default of the master, mariner, pilot or the servants of the carrier in the navigation or in the management of the ship, the owners of the goods carried hereunder will indemnify the carrier against all loss or liability to the other or non-carrying ship or her owners in so far as such loss or liability represents loss of or damage to or any claim whatsoever of the owners of the said goods, paid or payable by the other or non-carrying ship or her owners to the owners of the said goods and set off, recouped or recovered by the other or non-carrying ship or her owners as part of their claim against the carrying ship or carrier.		
c) On delivery of the cargo at such port, all conditions of the Bill of Lading shall apply and Vessel shall receive the same freight as if she had discharged at the original port of destination, except that if the distance of the substituted port exceeds 100 nautical miles, the freight on the cargo delivered at the substituted port to be increased in proportion.
